

## .Net Software Developer

We are looking for a talented .Net Developer to join the team.

---

360 Systems is a Microsoft Partner creating highly-regarded Web and Mobile Cloud applications running on Azure, and we want you to be part of our team. We are searching for a talented .Net Software Developer to create and maintain business applications and web systems for our clients. This is a fantastic opportunity to engage in a positive and innovative environment with a team of like-minded developers and consultants.

### .Net Software Developer Responsibilities

- ✓ Develop and implement new software applications
- ✓ Improve and refactor existing applications
- ✓ Test and deploy updates
- ✓ Support clients and their use of our applications
- ✓ Recommend improvements to be included in sprints
- ✓ Keep up to date with development technologies
- ✓ Mentor junior developers

### Skills

- ✓ Strong Maths based A-level or Degree
- ✓ Passion for software development
- ✓ 2+ years' experience in web and software development
- ✓ Developing front end in HTML, CSS, Javascript
- ✓ Developing back end in .Net, C#, MVC
- ✓ Understanding projects from perspective of both client and business
- ✓ Flexible and willing to accept change in priorities as necessary
- ✓ Strong attention to detail

It would be helpful to have any of the following:

- ✓ Knowledge of HR & Recruitment Systems
- ✓ Angular, React, JQuery, Bootstrap
- ✓ Microsoft Azure
- ✓ SharePoint
- ✓ IBM Lotus Notes Domino
- ✓ Infrastructure capabilities

### Location: Ellesmere Port, Cheshire

Our Ellesmere Port Office is between Chester and Wirral and is a convenient commute from Cheshire, North Wales, Liverpool and Warrington.

Salary: £30,000 to £45,000 DOE.
